FOR CORPORATE

2024 year planner

Welcome to Our World of Static Paper Excellence

Our mission is to revolutionize modern work and learning spaces by enhancing surface functionality. As the global leader in quality static wall coverings and films, we've earned a reputation for innovation and excellence.

WHAT IS STATIC MAGIC PAPER?

Static Paper is not a sticker. No glue is used to attach to the surface. Static Paper adheres to the smooth surface due to static charge.

It is used for the “cover” of walls, windows, doors, mirrors.

Static Paper is made from Polystyrene which holds surfaces using static electricity. An electrostatic charge is added for adhesion.

Static Paper is easy way of placing the image. You can move yourself and there are no glue residues left behind. Static Paper is beneficial, innovative and professional for marketing.

Printing on Static Paper is also possible. We can print your custom design work on it.
